### **Gutter Patrol – Masters Touch Announces Gutter Cleaning & Ice Dam Removal Services**

It wasn't long after the last leaves of autumn fell before this region was engulfed in snow. Because of this, many homeowners were unable to clear their gutters in preparation for the winter. Cluttered gutters can cause ice dams, which means that the water in your gutters does not flow down the drainpipe, but turns to slush, backs up, and then leaks into your home.

Catering to homeowners throughout the Metrowest area for a decade with their home improvement, design and build services, Masters Touch of Medfield has recently announced gutter cleaning and ice dam removal services.

"There is not much worse in the middle of winter than a major back up with ice dams and a big mess inside your home. This type of home maintenance just can't be put off," noted Doug Masters, founder of Masters Touch.

He continued, "If you do get ice dams, repairing the damage can be costly and may range from repainting from one to several rooms in your home; plastering and repainting the ceiling; repairing any damage to wood floors; and in extreme cases, replacing the gutters."

**To make an appointment to have your gutters cleaned out and/or any ice dam damage to your home repaired, contact Masters Touch at (508) 359-5900.**
